

AHM ZAFIR HASAN

FULL STACK DEVELOPER

Dhaka, Bangladesh • +880 1747 544 273 • ahmzafirhasan@gmail.com • github.com/Zafff-e • linkedin.com/in/zafir-hasan-developer

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), SQL, C#
- **Frontend Development:** React, Angular, Component Architecture, Single Page Applications (SPA)
- **Backend & APIs:** Node.js, Express.js, RESTful Web APIs, API Integration (JSON/XML), WebSockets
- **Databases (RDBMS & NoSQL):** Microsoft SQL Server, MongoDB, Mongoose, Relational Schema Normalization (3NF)
- **Core Concepts & Architecture:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Design Patterns (MVC, Repository, DTO), Token Auth (JWT), bcrypt
- **AI & Agentic Systems:** Agentic AI Workflows, LLM Orchestration & Prompting, Multi-Agent Handling, AI-Assisted Development
- **Tools & Cloud:** Git, GitHub (Branching, PRs, Code Reviews), Postman (API Testing & Validation), Cloud Services (Azure), VS Code

SOFTWARE ENGINEERING PROJECTS

TechNova E-Commerce Platform | *Node.js, Express.js, MongoDB, WebSockets, bcrypt* Full-Stack Project

- Architected a modular backend using **Node.js & Express.js**, implementing RESTful API endpoints for user authentication, product catalogs, shopping cart operations, and cash-on-delivery order processing.
- Modeled document schemas and relational references using **MongoDB & Mongoose** (User, Product, Order collections); migrated persistent data storage from static JSON to MongoDB.
- Implemented secure authentication with **bcrypt** password hashing and session validation; integrated **WebSockets** for real-time frontend updates and verified API payloads.

Hyperlocal Skilled-Worker Booking Marketplace | *REST API Architecture, Team Capstone* Capstone Project

- Serving as backend lead designing **RESTful API services** for customer booking flows, service scheduling, and provider profiles.
- Establishing API contracts, participating in daily standups, sprint planning, and managing the team repository on **Git/GitHub** with active peer code reviews.

Supply Chain & Order Management REST API | *C#, ASP.NET Web API, EF, SQL Server, Postman* Backend System

- Engineered backend RESTful Web APIs handling master-detail data structures, executing complete CRUD operations and database migrations with Entity Framework.
- Implemented token-based authentication and role-based access control; authored automated **Postman** test suites to validate endpoints, DTO contracts, and JSON responses.

Power Plant Generation Database Architecture | *Microsoft SQL Server, Relational Design, SQL* Database Design

- Designed a normalized 3NF relational database schema modeling monthly power generation metrics, plant operations, and fuel types based on real-world industrial specifications.
- Transformed raw operational spreadsheets into structured SQL tables, enforcing primary/foreign keys and referential integrity for scalable data retrieval.

EXPERIENCE & TECHNICAL TRAINING

IsDB-BISEW IT Scholarship Programme | Star Computer Systems Limited Jan 2026 – Present

Enterprise Software Engineering Trainee (Intensive Full-Time Diploma)

- Intensive backend software engineering training focusing on **Database Design & Implementation (MS SQL Server)**, **Object-Oriented Programming (C#)**, **Web APIs & Web Services**, and **Cloud Services (Azure)**.
- Built practical proficiency in relational schema design, 3NF normalization, RESTful API architecture, JSON/XML data handling, CRUD operations, and Entity Framework Code-First data modeling.

Headless Technology | Web Development & IT Associate Jan 2019 – Dec 2020

- Developed and maintained web applications and supported internal IT infrastructure; managed database updates and implemented technical solutions for client and internal workflows.

Marico Bangladesh Limited | Management Trainee Officer Jan 2021 – Feb 2022

- Collaborated with cross-functional corporate teams to execute analytical evaluations, data validation, and project coordination.

EDUCATION

University of Dhaka — Bachelor of Social Sciences (B.S.S. Hons) in Economics Jan 2014 – Dec 2019

- Coursework in Econometrics, Mathematical Statistics, and Quantitative Data Analysis.

IsDB-BISEW IT Scholarship — Professional Diploma in Software Development 2026

- Professional diploma curriculum focusing on Full-Stack Software Engineering, Relational Database Systems, and Cloud Web APIs.

Cantonment Public School & College, Rangpur — Higher Secondary Certificate (HSC) 2011 – 2013
